Summary

Computer engineer who automates business processes with AI. I have used it every day since 2023, both at work and in my personal life. After my time at AiKit Research, I am looking for a company that is clear that AI makes the difference and wants to build it deeply into its whole operation. If a test is needed, I will build whatever automation you want.

Experience

Sept. 2023 – Nov. 2026
Madrid

AiKit Research

AI Process Automation Specialist

AI model distributor: ChatGPT, Claude, Gemini, Grok, DeepSeek, GLM and more.

Integrates AI with the CRM to automate any company process.

Some of the things I have done:

- I automated purchase invoices, employee time tracking and holiday management, freeing up dozens of hours of administrative work every month.
- I also took on the role of Head of Talent: defining profiles, selection and closing.

Apr. 2021 – 2025
Tres Cantos, Madrid

Work In Space

Founder and Owner

Coworking in a tech space focused on AI.

Jun. 2021 – Mar. 2023
Madrid

Talent Keepers Teambuilding

Founder

Team building for technical teams.

May 2020 – May 2022
Madrid

BuhoLabs

Co-Founder and CEO

Chemical products marketplace for distributors of all sizes.

Feb. 2018 – Mar. 2022
Madrid

Redradix

Project Manager Lead · Full Stack Developer · Event Manager

Application development agency.

- I led web application development projects.
- I organized hackathons to attract technical talent with over 300 developers, and a platform to evaluate code and AI in competition.
